- **Town:** A medium-sized place (smaller than a city, bigger than a village).
- **Village:** A very small place, usually in the countryside.

 - *an umbrella, an apple, an old city*

8. Vocabulary & Plurals

Here is the full text translated into English for your students:

Rules for Regular Plurals

In most cases, forming the plural in English is very simple. However, depending on how the word ends, the ending can change.

1. General Rule: Add -S

For the vast majority of nouns, simply add the letter **-s** to the end.

- **book** $\rightarrow$ **books**
- **phone** $\rightarrow$ **phones**
- **computer** $\rightarrow$ **computers**
- **car** $\rightarrow$ **cars**

2. Words ending in -CH, -SH, -S, -X, -Z: Add -ES

When a word ends with these sounds, it is hard to pronounce just the "-s".

Therefore, we add **-es** (which makes an "iz" sound).

- **a watch** $\rightarrow$ **watches**
- **a bus** $\rightarrow$ **buses**
- **a box** $\rightarrow$ **boxes**

3. Words ending in -F or -FE: Change to -VES

For words that end with the "f" or "fe" sound, we change that ending to **-ves**.

- **a knife** $\rightarrow$ **knives**
- **a life** $\rightarrow$ **lives**
- **a shelf** $\rightarrow$ **shelves**

4. Words ending in Consonant + Y: Change to -IES

If the word ends in a **consonant + Y**, drop the **Y** and add **-ies**.

- **a city** $\rightarrow$ **cities** (t + y)
- **a family** $\rightarrow$ **families** (l + y)

⚠ **Note:** If the word ends in a **vowel + Y**, just follow the general rule and add **-s**:

- a **key** $\rightarrow$ **keys** (e + y)
- a **day** $\rightarrow$ **days** (a + y)

5. Compound Nouns (Two-word examples)

In expressions like *a bottle of water*, only the main countable object changes to plural:

- a **bottle of water** $\rightarrow$ **bottles of water** (*water does not go into the plural*)
- a **cup of coffee** $\rightarrow$ **cups of coffee**

9. Numbers 1 to 12

- **1** – One
- **2** – Two
- **3** – Three
- **4** – Four
- **5** – Five
- **6** – Six
- **7** – Seven
- **8** – Eight
- **9** – Nine
- **10** – Ten

- **12** – Twelve
